NASS Products and Services

NASS on the World Wide Web

NASS has a homepage on the World Wide Web that provides easy access to the wide range of information and data produced. Through the homepage, you can obtain copies of all reports described in this catalog, commodity and price specialists, and more.

NASS Homepage -- <http://www.usda.gov/nass/>

Through a cooperative project with Cornell University, the Albert R. Mann Library distributes NASS, Economic Research Service (ERS), and World Agricultural Outlook Board (WAOB) periodicals and data files via the USDA Economics and Statistics System on a web server. Over 400 reports annually are available free of charge. All NASS reports and WAOB's World Agricultural Supply and Demand Estimates (WASDE) are available electronically within minutes of release.

A calendar of scheduled releases is available from the NASS Homepage by clicking on Publications. At the next screen, select Reports Calendar and choose the year and month. To view a combined schedule of releases from NASS, ERS, and WAOB, select the Search from the Publications page and click on Calendar in the upper frame.

NASS Subject Specialists on the Internet

NASS maintains a listing of subject and commodity specialists for the various program areas. From the NASS Homepage, Click on Publication, then Contacts.

NASS Customer Service

NASS operates an information center, staffed 7:30 a.m. to 4 p.m. ET Monday-Friday, to assist you with accessing reports and data via the Internet, autofax, or printed copies. Please call 1-800-727-9540.

Agricultural Statistics Data Base (Quick Stats)

U.S. and State information, published in NASS national reports, is available in an online database via the Internet **FREE OF CHARGE**. The database allows custom extracts based on commodity, year, State, and other selection criteria and produces an output file compatible for updating databases and spreadsheets for selected commodities. The database can be accessed from the NASS Homepage at: <http://www.usda.gov/nass/> and select "Quick Stats".

County level data are also available via Quick Stats. The data includes the total crops for each county and breakouts for irrigated and non-irrigated practices for many crops, for selected States. The database allows custom extracts based on commodity, year, selected counties within a State, or all counties in one or more States. The county data include totals for the Agricultural Statistics Districts (county groupings) and the State. The download data files contain planted and harvested area, yield per acre, and production. Another method for customers to access crops county data is via

pre-extracted files. The pre-extracted data files, in Comma-Separated Value (CSV) format, are available for the current year, as well as historic years. These files were extracted from the Quick Stats and contain total crop and cropping practices for each county.

District forecasts are also available for selected States during the current year. From the Agricultural Statistics Data Base "Quick Stats" page, click on District forecasts to access this data.

Free E-Mail Subscription to NASS Reports

Subscribe E-mail - Mann Library provides a **FREE** e-mail service for NASS reports. When a current report is released, it is sent via e-mail to the list of subscribers for that report. From NASS Homepage at <http://www.usda.gov/nass/>, select **Publications**. From the **Publications** page, the **Subscribe E-mail** button takes the user to the page describing e-mail delivery of reports. Click on **Go to the Subscription Page** and follow the instructions. It's as simple as clicking on the report name.

There is no charge for e-mail subscriptions via Internet. You may "unsubscribe" at any time by going to the **Subscription Page** and unchecking the reports you wish to discontinue.

Free E-News Release Subscription Service

Subscribe to automatically receive NASS news releases and announcements via e-mail by selecting Subscribe News Releases from the NASS Publication Page. For further information on the free E-subscription service, call 800-727-9540.

Data Users Meetings Give Us Your Feedback!

NASS sponsors annual U. S. Department of Agriculture (USDA) data users meetings in Chicago to solicit comments and suggestions from users of statistical and economic reports issued by NASS, World Agricultural Outlook Board, Economic Research Service, Foreign Agricultural Service, and Agricultural Marketing Service.

These meetings provide an open forum where representatives of the data programs are available to answer questions about their agency's current programs and receive public suggestions for possible changes.

Proceedings are prepared from some of the meetings and provided to the participants.

These meetings are announced on the Internet at the NASS Homepage <http://www.usda.gov/nass/> under "News and Coming Events" as soon as they are scheduled for the upcoming year.

Written comments concerning the data users meetings, questions, or requests for additional information are welcomed. Please direct comments or questions to Karlyn McCutcheon USDA-NASS, Room 5805 South Building, Washington, DC 20250-2000. Phone (202) 690-8141, fax (202) 690-1311, or e-mail Karlyn_McCutcheon@nass.usda.gov.

NASSFax Information Service

This system is operated by the National Agricultural Statistics Service (NASS) of the U.S. Department of Agriculture as a service for users of NASS information. Documents available **FREE** through NASSFax are reports issued by NASS. In general, **current U.S. summary pages and report highlights are available via the NASSFax for selected reports by document number. The 1997 Census of Agriculture State Highlights are also available.**

It's quick and it's easy. Helpful hints:

1. Pick up the receiver on your facsimile machine (or a touch-tone telephone associated with your fax

machine), dial 202-720-2000, listen, and respond to the voice prompts.

2. If you know the document number of the report(s) you desire, you can override the opening greeting by entering the document number as soon as the system answers.
3. You can request up to three documents in one phone call.
4. When the answering system prompts, 9="yes" and 6="no."

CD-ROM Products

Agricultural Statistics Book 2003 CD-ROM. April 2003. **Order #ZAG-2003CD, \$28.00.** *Agricultural Statistics* is published each year to meet the diverse need for a reliable reference book on agricultural production, supplies, consumption, facilities, costs and returns, land resources, farm programs, crop insurance, crop loans, etc. The publication contains 10 years of U.S. data and 3 years of State data covering a wide variety of agricultural facts through the 2002 production year. A comprehensive statistical report (approximately 500 pages) containing current and historical agricultural data, updated annually. Statistics cover grain and feed; cotton, tobacco, sugar crops, and honey; oilseeds, fats, and oils, vegetables and melons; fruits, tree nuts, and horticultural specialties; hay, seeds and minor field crops; cattle, hogs, and sheep; dairy and poultry statistics; farm resources, income, and expenses; taxes, insurance, credit and cooperatives; stabilization and price-support programs; consumption; fertilizers and pesticides; and more.

1997 Census of Agriculture CD-ROM Set - 1A, 1B, 1C. *Census CD-ROM* **Order #AC97-CD-VOL1, \$50.00.** The 1997 Census of Agriculture State and county data are provided in this three CD-ROM set. The set includes software and manipulable data files. It also includes Adobe Acrobat Portable Document Format (PDF) files of the printed reports for each State and the U. S. Summary.

Cropland Data Layer CD-ROM. NASS is proud to offer this GIS product to the public domain and more specifically for those involved in the agricultural sector of the nation's economy. These products are the final mosaicked output from NASS's Remote Sensing Acreage Estimation Program. Available on these CD-ROM's are categorized Landsat 5 & 7 data which are identified and labeled as specific crop types for the cultivated cropland areas of each state. Each set includes software for image browsing, the digital categorized mosaicked image of the State, and associated accuracy statistics. The images are available in ERDAS Imagine's, .GIS and .IMG formats, for easy importing into most commercial GIS and image processing packages. Mosaicked precision registered images are available for Arkansas, Illinois, Indiana, Iowa, Mississippi, and North Dakota and partial coverage is available for Missouri and Nebraska beginning in the years indicated on the map graphic. To purchase a copy, contact NASS Customer Service at 1-800-727-9540, or visit the Cropland Data Layer website at www.nass.usda.gov/research/Cropland/SARS1a.htm.

Survey Assistance to Other Organizations

In addition to the many statistical activities directly related to its mission, NASS conducts surveys for and lends technical expertise to other Federal agencies, State governments, and private organizations on a reimbursable basis.

NASS provides support and assistance in the areas of questionnaire and sample design, data collection and editing, analysis of survey results, and training. For further information contact the Survey Administration Branch at 202-720-2248.

NASS Products and Services

NASS International Program Activities

NASS technical support is not confined to the domestic sphere since Agency specialists frequently provide assistance and training to other countries to help establish or improve their agricultural statistics programs.

NASS has been involved in international training and technical assistance activities for over 38 years. Assistance and training are provided to technical staff in other countries for improvement of individual skills and survey methodology to provide more reliable and timely agricultural information. NASS participates in reimbursable international training and technical assistance because they:

1. Allow for improvement of USDA's own assessment of food and fiber production capabilities and levels in foreign countries;
2. Assist the U.S. Government's efforts to help developing countries improve institutions that can help eliminate hunger and poverty; and
3. Develop NASS's human resources by exposure to other cultures and work situations.

For further information contact the NASS International Programs Office at 202-720-4505.

Data Products

NASS can prepare data to meet user specifications. Sponsors must reimburse all costs for specially prepared work. For further information, call the NASS Data Lab at 202-720-5414.

Catfish Production: Feb 7, Jul 28. February 7 issue contains grower inventory numbers by size groups for 15 selected States. July 28 issue includes data for major States (AL, AR, LA, and MS) only.

Trout Production. February 28. **Order # ZTP-2003, \$23.00.** Number of operations, grower sales, and fish losses for selected States.

Census of Agriculture

The Census is conducted every 5 years to obtain agricultural statistics for each county, State, and the Nation.

The Census is the leading source of statistics about the Nation's

agricultural production and the only source of consistent, comparable data at the county, State, and national levels. The Census is authorized by law under Title 7, U.S. code, and is conducted in close cooperation with the Nation's agricultural user groups and farmer organizations.

The Census includes all places from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the census year.

Special Studies and Censuses are conducted as follow-on programs to the Census. They include a Farm and Ranch Irrigation Survey, an Agricultural Economics and Land Ownership Survey, a Census of Horticultural Specialties, and a Census of Aquaculture.

Volume 1, Geographic Area Series

CD-ROM Set - 1A, 1B, 1C. Census CD-ROM, Order # AC97-CD-VOL1, \$50.00. The 1997 Census of Agriculture State and county data are provided in this three CD-ROM set. The set includes software and manipulable data files. It also includes Adobe Acrobat Portable Document Format (PDF) files of the printed reports for each State and the U. S. Summary.

State and County Data. Separate State reports display statistics for the entire State and every county or equivalent. The United States Summary provides national data and selected data for each State. Data include number of farms; farm characteristics; livestock, poultry, and their products; crops; irrigation; operator characteristics; ownership; income; production expenses; chemical use; land use; and more. Reports cover 1997, with comparative data for previous census years. Additional reports are presented for Puerto Rico, Guam, the U.S. Virgin Islands, the Commonwealth of Northern Mariana Islands, and American Samoa. Available on Internet (www.usda.gov/nass/) and CD-ROM. The reports are also available in printed form. Each State's order number and price information is listed on page 8.

2002
CENSUS OF
AGRICULTURE

The Census of Agriculture is Underway!

The 2002 Census of Agriculture collects information from farmers and ranchers from December 2002 through February 2003.

The census provides the official facts representing all U.S. producers and commodities.

First time census information will be available on:

- Computer/Internet usage
- Production contracts/landlord shares
- Multiple operators per farm
- Certified organic acreage
- Aquatic plants
- Acres treated with manure
- Grain storage capacity
- New commodities (bison, deer, elk, lama, emus, and ostriches)
- More detailed farm-related income
- Cattle on Feed inventory

Data will be released at www.usda.gov/nass/ on February 3, 2004.
